- **Archicad 10 keys will be upgraded electronically.** If you own a 7.0 key or higher, there are no key exchanges; The WIBU-brand keys that started shipping since version 7.0 will be upgraded electronically via the web. Directions on this process will ship with each upgrade. If you still have version 6.5 keys or earlier, your keys will be exchanged upon upgrading.
- **All keys are USB.** The same USB key will run on Macs and PC's. Both versions of Archicad ship on one CD. It's easy to switch between the Mac and the PC version.
